

Incident Qualification System

Wildland Fire Fighter Personal Information

The following form needs to be completed to enter all pertinent data about the individual fire fighter into the IQS Database. This information both supports the certification process for issuing an Incident Qualification Card (Red Card) and serves to provide the necessary information to the national level for those who wish to be called to assist on fires.

Those fields that are marked with an asterisk (*) must be completed, and all other fields are voluntary; however those marked with a pound symbol (#) are very important and should be completed. Please complete each field in its entirety and PRINT all information so no mistakes are made with your personal data. If you have any questions, direct them to your instructor or contact the State Fire Marshal Training Division at 308.385.6892 or email at training@sfm.state.ne.us (send email for electronic form).

Descriptions of information requested are listed on the back of the form (or on 2nd page if electronically completing form). This form must be completed before any Incident Qualification Card (Red Card) will be issued.

NOTE: To complete this form on the computer, send an email to training@sfm.state.ne.us and request the IQS Wildland Fire Fighter Personal Information form. When you receive the form, follow the instructions on the email message for completion.

The following descriptions will explain what type of information is needed, and may, in some cases, explain why the information is needed and what it will be used for. If you have any questions, contact the Training Division or ask your instructor.

Individual's Name: Self-explanatory

Personal ID Number (SSAN): This is your social security number. This number is not published publicly and the SFMTD does maintain confidentiality of individual information, but this information will be released to the federal government when the information in the database is exported for training validation and establishing a personal portfolio of each fire fighter.

Address: Self-explanatory

Email Address: Self-explanatory (if email address changes, notify the SFMTD and ask that your information within the IQS database be updated)

Available for National Response: If you indicate **YES**, this means you would be available to response, when contacted, to serve within a crew or some other form of group to a wildland fire anywhere in the United States. If you indicate **NO**, you will only be contacted for wildland fires that may occur within the boundaries of the State of Nebraska.

Personal Phone Numbers: Self-explanatory Work (Other) would be if you had a direct line as well as a main number to your place of business.

City or County Dispatch Center Information: This is the dispatch center that would be made aware of your availability for response. However, most firefighters called to service are part of a crew or some other established group within the guidelines of the Wildland and Prescribed Fire Qualification System Guide. Very seldom is an individual fire fighter called to service.

Do you have firefighting experience: This information is used to decide whether or not you are qualified on the Incident Qualification Card (Red Card) as "JOB" qualified or "TRAINEE" qualified to a specific level. This information will be used in lieu of the after-class completion of a FFT2 Task Book. However, for those who have no experience in firefighting; the organizational official may assign a Task Book, with this decision supported by a recommendation from the course Instructor. Instructor can clarify this info.

Job Title: Some people will use the title of fire fighter because they belong to a Fire Department, while others will list their normal position of their daily work. For example, the SFMTD instructors are known as Training Specialists, or a person working in a park may be a Park Ranger, Game Warden, etc., others may be Farmer, Welder, Banker, etc.

Employment Status: Once again, some will list their status (based on the above job title) as Volunteer Fire Department, or Permanent Full Time, Permanent Part Time, Casual/Emergency Fire Fighter, Contractor, etc.

Personal Information—Response Assistance/Notification of Injury: Self-explanatory

Emergency Contact Information: This is where the SFMTD will list your communications dispatch center information for the federal government, but you can also list contact persons and phone numbers in case of an emergency.
