## User Home Page

This section provides information on the system and its documentation.

### Notice for Users with Version 5.4.0

On-line National database using the NFIRS client software, Version 5.4.0 is required.

The NFIRS 5.0 Version 5.4.0 software is available for download. Complete instructions are provided in the documentation.

## NFIRS 5.0 Software Version 5.4.0

NFIRS 5.0 Software Version 5.4.0 has been developed with the flexibility to run the Client On-Line (Internet Connection) or Off-Line (database resides on your PC).

### System Requirement Minimums

CPU	200 MHZ Pentium Class
Memory	64 MB of RAM
Hard Drive	55 MB available disk space
Monitor	800x600 Resolution

**On-Line** mode requires Internet access. Users who do not have on-line database programs on the PC: Microsoft Access 97, Access 2000, Access 2002, Visual FoxPro 6.0, Microsoft SQL Server 7.0, or SQL Server 2000, will need to click

After a successful login, you will come to the “NFIRS 5.0 User Home Page” which provides System Requirements and information.

Review this page for installation information and System Requirements.

Click on “Download Software” under User Section to go to Download page.

## NFIRS 5.0 Software, Version 5.4.0

### *Notice for Users with Version 5.3.4 or earlier:*

To login in the On-line mode using the USFA NFIRS 5.0 client software, Version 5.4.0 is required.

Previous version users with data saved to an Off-line database should make a backup copy of the Off-line Database before proceeding with Version 5.4.0 installation.

New users may refer to the [Tutorial](#) for general help with download and installation.

To generate, retrieve, and print Forms Based Incident Reports, Adobe Acrobat Reader Version 3.02 or higher must be installed on the PC. The Adobe Acrobat Reader can be obtained at no cost from the Adobe website. Go to <http://www.adobe.com> and search for Adobe Acrobat Reader.

Download and install the USFA NFIRS 5.0 Software Version 5.4.0 from the links below.

For step by step instructions for installing Version 5.4.0 and un-installing all other versions, users should refer to the [Version 5.4.0 Information and Instructions page](#) or the [Readme.txt file](#).

### Download
